

A unified solution for complaints, grievances and conflict resolution

FOR EMPLOYEES

After recognizing the power of the original Advocate solution for student conduct issues and grievances, universities asked us to create a version for employees as well. Advocate GME came to fruition as the solution for managing and reporting on employee complaints, grievances and cases in need of conflict resolution.

Protect your organization from liability by providing your employees with an easy, reliable way of reporting concerns

Your employees deserve a safe workplace and a simple, user-friendly way to report any issue they fear may threaten their ability to thrive. Advocate GME's capabilities lessen some of the stress employees might already be facing after an incident and enable them to easily voice their concerns.

FOR EMPLOYERS

Protect your organization from liability by providing your employees with an easy, reliable way of reporting concerns. Be quickly notified about any complaints, collect critical data to share with key decision-makers and ensure that everyone involved has the information necessary to handle the situation appropriately.
